

What is claimed is:

1. A door weather strip attached to a door frame of an automobile provided with a latch wherein,

an automobile body is equipped with a door provided with a latch and a door unprovided with a latch;

said automobile body is unequipped with a center pillar;

an opening for installing a latch is formed at an upper end of one side of a door frame of said door, where hinges are unprovided;

an inner sidewall of a molded part of the door weather strip is attached to said upper end of the door frame;

said inner sidewall is provided as the bottom end thereof reaches right above the opening; and

a drainage rib is provided at a rear face of said sidewall for directing water into said opening.

2. A door weather strip attached to a door frame of an automobile provided with a latch wherein,

an automobile body is equipped with a door provided with a latch and a door unprovided with a latch;

said automobile body is unequipped with a center pillar;

an opening for installing a latch is formed at an upper end of one side of a door frame of said door, where hinges are unprovided;

an inner sidewall of a molded part of the door weather strip is attached to said upper end of the door frame;

said inner sidewall is provided as the bottom end thereof reaches right above the opening;

a drainage wall is provided at the bottom of the sidewall as the bottom end of said wall reaches to an upper portion of said opening; and

a drainage rib is provided at a rear face of said sidewall for directing water into said opening.
